

FURNITURE BARGAIN.

Not every day, or indeed, every other day—special sales notwithstanding—can really fine, high grade furniture be bought at cost or near it. It stands to reason that no dealer can make a practice of bargain selling, unless his goods are the veriest shoddy. We have to-day a special offer to make—a genuine bargain—an unusual snap—

One \$65 fine Overstuffed Parlor Suite of five pieces—very handsomely upholstered in fine Brocatel—tasteful pattern, exceptional value—the price now is... \$43

ICE
LIGHTNING'S HUMAN TARGET.

A Pennsylvania Woman Who Has Been Shocked 31 Times in 10 Years.

Sharon, Pa., Sept. 11.—Physicians are puzzled over the strange case of Mrs. Archibald Rankin, an elderly woman, residing two miles east of Sharon. Eight or ten years ago, during a storm, she suffered a severe electrical shock, and for two months thereafter she appeared to be at the point of death. She finally recovered, but ever since then she has been peculiarly susceptible to electricity, and has suffered from thirty distinct shocks.

Mrs. Rankin and her children are in terror whenever a storm comes up, and a sad little home is always kept in readiness to carry a messenger to Sharon for a physician. When during a storm a mounted man is seen scurrying through the streets of Sharon, the people take it as a sign that Mrs. Rankin has been shocked again. She has been provided with a chair resting on glass insulators, and in this she always takes her seat at the approach of a storm. Mrs. Rankin was visiting a neighbor's day when a storm came up. She immediately hastened toward home, but before she could reach it she suffered a severe shock that paralyzed her left side. It is thought that she cannot recover.

On several occasions when Mrs. Rankin has suffered from the electric fluid the house has been damaged, but, strangely enough, none of the other inmates has ever been injured.

WILL WELCOME THEM.

National Federation of Liqueur Dealers Will Be Taken Care Of.

The citizens committee of the Federation of Liqueur Dealers met yesterday in Washington Light Infantry Hall. The purpose of the meeting was to arrange for the delegates to the National Federation of Liqueur Dealers, which will meet here October 14-16, inclusive. The meeting was largely attended, there being present twenty-five or more of the most prominent retail and wholesale dealers. The committee was organized, and the election of Mr. E. H. Neumeier, chairman; Charles L. Beatty, secretary; and William McLaughlin, treasurer. Letters were received from many dealers, stating their regrets for inability to be present.

It is the intention of the local dealers to give the delegates a right royal reception, and to make the visit a most enjoyable one. Capital as a rule is to be remembered by the members of the convention. The program of entertainment is, so far as arranged, a general reception on the arrival of the delegates on the 14th, on the 15th the whole party will make a trip to Cabin John and back, and on the 16th a banquet will be given at the hotel. The party will be photographed under the arch. On the day following an excursion will be made to Mount Vernon and back. The party will be accompanied by a motor car, and a large number of the party will return to the city early and a luncheon will be served for the delegates at the Ebbitt House in the evening.

The entertainment of the visitors will be in charge of the following committee: Executive, E. H. Neumeier, chairman; L. Beatty, E. L. Jordan, D. P. McCarthy, William McLaughlin, Matthew Goddard, R. W. Wynn, and W. M. Mack. Messrs. A. W. Mead, W. J. Donovan, James McLaughlin, H. J. Edwards, J. M. Farnham, M. P. Sullivan, M. P. McDonald, and L. F. Madigan.

Christian Endeavor Rally.
On next Sunday evening, commencing promptly at 7:30 o'clock, there will be held at Emory Chapel, a grand Christian Endeavor rally and echo of great Boston convention. A number of well-known Christian workers from Washington and abroad will be present and make addresses. There will also be solos, duets and quartette singing and a good time will be had.

Ten Days' Trip to Niagara Falls.
An early fall trip to Niagara Falls, Ontario, Glen, Mauch, Chautau, Glen, Onat, Rochester and Geneva has been arranged via the Royal Blue Line and the famous Lehigh Valley route.

A special express with Pullman Parlor cars attached, in charge of an experienced tourist agent, will leave the B. & O. station, Washington, Thursday, September 12th, 8:10 a. m., Baltimore, 9:35 a. m., arriving at the Falls, 11:00 p. m.

Round trip tickets good ten days, \$10.

SPANISH TROOP VESSELS

Four Steamers Are Nearing
Four Cuban Ports.

PLANTATIONS PUT TO TORCH

Insurgents Continue Their Work of Destruction in Trinidad—Activity of Rebel Embassies Sent to Secure Recruits—Dynamite Again an Important Factor—Campos in Sagua.

Havana, Cuba, Sept. 11.—These steamers are expected to-day, all with Spanish troops on board.

The San Augustin in Nuevitas, the Santo Domingo in Cienfuegos, the Leon XIII. in Santa Barbara, and the Colon in this port. Insurgent bands have invaded Trinidad and destroyed by fire the plantation Manacas Yanga. They also attacked the county town near by and burned a small fort. Many houses and large stores of provisions were destroyed in the town.

The rebels were finally routed by the Spanish commandant, Col. Villares, who had hastened to the assistance of the inhabitants. The rebel loss was nine killed, many wounded and five taken prisoners.

PLANTATIONS DESTROYED.

The insurgents have also burned the plantations of Senor Antonio Flaquer and Senor Antonio Alena. These plantations bore the names San Antonio and Ojo de Agua. They were destroyed Monday night as a train bearing regular Spanish troops via Sagua was passing.

On a train bearing an artillery battalion yesterday two men were captured who were distributing insurgent proclamations. They were armed with revolvers. They gave their names as Manuel Suarez and Pastor Valdivia.

Francisco Texes, the editor of a leading newspaper in Holguin, has joined the rebels. Gen. Campos is in Sagua La Grande to-day.

DYNAMITE AGAIN USED.

The insurgents have again made use of dynamite on the railroad with disastrous effect.

Between Calmanera and Guantanamo they placed a bomb on the track, which was exploded by a passing train filled with soldiers. Several were killed and wounded and the train was completely wrecked.

Havana, Cuba, Aug. 30, via Tampa, Fla., Sept. 11, 1895.—La Lucha alleges that the British steamers engaged in the transportation of mineral for an African iron mine in the interior of the United States are also being used for the use of the Cuban insurgents.

The paper urges the government to immediately adopt more stringent measures to break up the supposed contraband trade of the vessels mentioned.

Madrid, Sept. 11.—The correspondent of the Imparcial at Havana confirms the report that a band of rebels threw a dynamite bomb under a railway train filled with troops on Sunday, killing two soldiers and wounding seven. The Herald publishes the report of an interview with ex-Premier Sagasta, in which that statesman is represented as saying that he has no desire to discuss politics until the Cuban question is settled. He does not believe it necessary, however, that further reinforcements be sent to Cuba.

TREMBLOUS RECEIPTS.
How Grain Is Pouring Into Elevators at Duluth.

Chicago, Sept. 11.—A Duluth, Minn., special says:

The tremendous receipts of wheat at this point from North Dakota and the northwestern part of Minnesota are causing comment among the grain men, especially those who a short time ago were predicting a sudden decrease in wheat.

The receipts are the largest in the history of the Northwest at this time of the year. Those reported yesterday were 1,431 cars, against 700 cars the same day in 1891, and over 700 cars of the new grain is in transit.

The grain which is below grade has been damaged by smut, which will, before the crop is in, be found to have done considerable damage. Grain men predict that unless new seed is obtained at once the next crop will be almost worthless, as the smut keeps increasing year by year.

The only way to stamp out the trouble, which now threatens to do great damage next year, is to procure seed from fields which have not been contaminated in the slightest degree.

American Acquitted of Murder.

The United States consul at Matanzas, under date of August 31, reports to the Department of State that Charles Henry May, an American traveling in Cuba, was arrested August 28 for killing a negro on November 28, 1894, and acquitted. It was shown at the trial that the killing was in self-defense.

The supply of ammunition is to be as follows: Two hundred rounds thirteen-inch ammunition, 600 rounds eight-inch ammunition, 3,500 rounds five-inch ammunition, 10,000 rounds six-pounder ammunition, 2,400 rounds one-pounder ammunition. These will also be required about 100 cubic feet for the storage of the submarine mining outfit.

Fifth—A torpedo outfit to consist of five torpedoes, eight torpedoes, and suitable allowance of gun cotton for mines and miscellaneous purposes. The torpedoes will be of a medium depth of seven feet and one-half to two feet.

Sixth—Provisions and small stores to be carried for three months.

The general dimensions of department design are as follows: Length of lead water line (normal displacement), 368 feet; moulded breadth at lead water line, 72 feet; mean draft at normal displacement, 23 feet 6 inches; normal displacement, about 11,500 tons; total coal capacity, about 1,210 tons; coal carried at normal displacement, 410 tons.

The law limits the cost to \$4,000,000 exclusive of armament.

GOLD RESERVE SWELLED.

Action of the Syndicate Causes Much Treasury Gratification.

The announcement that the syndicate had deposited in the sub-treasury \$3,000,000 in gold was received at the Treasury Department with much satisfaction.

No intimation had been received that a heavy deposit might be expected, and the earlier notice that \$1,000,000 had been withdrawn made the news all the more gratifying. Beyond the remark that it was good news, Secretary Carlisle would make no comment on the action of the syndicate.

License Will Be Refused.

The collector of customs at New York has made a preliminary report in his investigation of the case of Ben Brimley & Allen, who are alleged to have been engaged in illegally procuring large amounts of drawback on exported goods. The collector's report does not state in detail what his investigation discloses, but enough has been learned to warrant him in refusing the firm a license for another year.

Chief Constable Home.
Mr. J. M. Constable, chief of the Customs Division, Treasury Department, has returned from his vacation, which he spent in Maine.

Dr. Walker has Conquered Chronic Diseases.

Dr. Walker's great and unprecedented success in the treatment of chronic diseases has been a mere accident or chance. His successful career is only the logical result of his own work and attainments. He is a man of great natural ability and adaptability for his profession, his great energy and his tremendous capacity for work, a part of his great success must be attributed to his close attention to his patients. No confidence is made public without consent of patients.

Dr. Walker may be consulted free of charge, at his well-known sanitarium, 1411 Pennsylvania avenue, adjoining Ward's Hotel, or by letter. Office hours, 10 a. m. to 5 p. m., Wednesdays and Saturdays evenings, 10 to 12 p. m.

Change for treatment very low. All interviews and correspondence sacredly confidential. No money made public without consent of patients.

OPPOSES RUSH MEETINGS

Presiding Elder Collett Advises Colored Pastors Against Them.

UNNECESSARY IN THIS AGE

Crowded Condition of the Public Schools Touched Upon and Remedial Action Urged—Potomac Conference Churches Arouse Healthy Financial State—Reports From Committees.

The fourth annual session of the Potomac District Conference of the Baltimore Annual Conference, of the A. M. E. Church, convened yesterday in St. Paul's M. E. Church, southwest, as stated in The Evening Times.

The morning session was well attended, many well known colored leaders of the District and Maryland being present. The conference was opened with a devotional hymn, followed by prayer by Rev. Elijah P. Grinage. Rev. James H. Scott and Rev. F. S. Dennis read Scripture lessons, after which the regular business of the conference was taken up. Rev. John H. Collett, of Baltimore, the presiding elder of the conference, occupied the chair, and Rev. J. H. McEaddy, of Benning's Church, was secretary, and Rev. John O. Gastis, of Bladensburg Church, assistant secretary. George A. Smallwood, of St. Paul's Church, delivered an address welcoming the delegates to Washington and predicting much success for the meeting.

BUSH MEETINGS MUST GO.
In his annual report Presiding Elder John H. Collett gave a resume of the work accomplished by the various churches during the year. He pointed out the need of the year, and took occasion to call attention to some of the striking needs of the various churches.

He condemned camp meetings as unnecessary in this age of commodious churches, and urged the ministers present to do all in their power to discourage their continuance.

The crowded condition of the colored public schools was another feature touched upon by the presiding elder. He gave several instances of where 150 colored children were crowded into a school building, and together in one room. He urged that immediate steps be taken to bring the matter before the proper authorities.

ITS FINANCES HEALTHY.
The committee on finance, consisting of Rev. John W. Norris, J. H. Robinson, J. C. McEaddy, H. H. Burk, and R. Delaney, reported the churches of the conference to be in a good financial condition.

Rev. J. H. Robinson delivered an address on "Some of the Best Methods of Holding Our Young People in the Church."

The conference heard with much regret of the death of Elder William B. Brown, of the Baltimore conference, and a committee, consisting of Rev. John T. Jenifer, Elijah P. Grinage, John R. Johnson, J. R. Wallace, J. W. Martin and John Roberts, was appointed to draft suitable resolutions expressing the sorrow of the conference, to be conveyed by one of their number to his family.

After the transaction of miscellaneous business, the conference adjourned, with a benediction, to meet again at 2:30 o'clock, when the Right Rev. J. W. Norris delivered an address upon "The Christian Endeavor Society, its influence and effects upon the church."

The conference will continue to-day, with morning, afternoon and evening sessions.

FATAL OVERHEAD WIRE.

One Man Roasted to Death, Others Terribly Shocked.

Lancaster, Pa., Sept. 11.—William W. Fitzgerald, a prominent painter of this city, while painting the Railroad House at Lancaster, was struck by an electric wire, and roasted to death.

The wire was a live one, charged with 2,000 volts, and Fitzgerald was instantly killed, his body being roasted before it could be removed.

William Kirknesser, partner of Fitzgerald, in trying to rescue the latter, was terribly shocked and narrowly escaped with his life.

Several parties were also badly shocked.

HASTINGS COMES BACK.

Hawaiian Charge of Affairs Says Minister Castle Is Not Here.

Hon. Frank Hastings, charge d'affaires of the Hawaiian legation, accompanied by his wife, returned to Washington last night after a few weeks vacation in Maine.

Mr. Hastings will go North again in a day or two and will stay over at Pittsfield, Mass., for a short time, in order to talk over Hawaiian affairs with Minister Castle, who was two months or so ago appointed to succeed Hon. Louis A. Thurston.

Mr. Hastings made his last night that Minister Castle was in Washington, but he did not know where he was, and he did not know where he was, and he did not know where he was.

He presented his credentials to the State Department as the accredited Hawaiian legation, and he was received with much courtesy.

He will do so immediately upon his arrival in Washington, probably some time this morning.

CHASED BY A WOMAN.

Mrs. Merrick Found the Man Who Emptied Her Pocketbook.

Thomas Frost, an old pensioner, was locked up last night at No. 1 station-house, charged with stealing \$12 from the pocketbook of Katie Merrick. The arrest was made on Pennsylvania avenue, between Ninth and Tenth streets, about 6:30 p. m.

A woman had chased the man, and quite a crowd had collected when Policemen Goss came up and took the two to the station. Here the woman was locked up, too, as being under the influence of drugs.

Good Hats

are not a matter of chance. WE'VE STUDIED YOUR WANTS

Our \$2.40 Hat will fill them.

HENRY FRANC & SON, COR. 7TH & D.

JAPS WANT NO PREACHERS

Missionary Johnson of the Board of Missions Gives Information.

Oriental Islanders Want No Foreign Teachers and Say They Are Able to Attend to Their Own Affairs.

San Francisco, Sept. 11.—Four representatives of the American Board of Missions are at the Occidental Hotel. They are Rev. James Gibson Johnson, of Chicago; Rev. A. H. Bradford, of Montclair, N. J.; and Rev. William P. Ellison and Dr. James L. Burton, of Boston, who compose a deputation recently appointed by the American Board of Missions to visit Japan in the interest of the missionaries who have lately had serious difficulties with the Japanese government. The commission expects to leave on the steamer Coptic, which sails in a few days for the Orient.

It is pretty well understood the Protestant missionary work in both China and Japan is considered under the direction of the American Board of Missions, which has in the past few years accomplished a lot of good work in the Orient. Later, however, there has been demonstrated among the people of Japan a disposition to no longer co-operate with foreigners in the educational advancement of the country.

According to the statements of Dr. Johnson, the Japanese regard themselves as fully capable to manage their own affairs and they have begun to look upon the efforts of the missionaries to assist them as an imposition and irritability.

There is a law in the empire which prohibits foreigners holding property except in a few treaty ports, and all missionary property necessarily must be held by Japanese, which, as may be imagined, severely complicates the efforts of the Christian workers.

"The Japanese do not bear any hatred for foreigners," says Dr. Johnson, "but their government insists that the cooperation between its subjects and missionaries and teachers shall cease."

"Our American board has been asked by the government to send a deputation over to that country for the purpose of settling important questions arising from these differences."

Mrs. Anna Graham Parvazad, wife of Mr. Chancery Graham, the architect, and mother of Chancery G. Graham and Charles H. Graham, who has been ill for many months, was yesterday stricken with paralysis at her own residence, No. 3028 Cambridge place, Georgetown.

Real Estate Transfers.

ATHLETES WEST WILD.

Hugged and Kissed and Cabled Congratulations.

New York, Sept. 11.—A special to a morning paper from New Haven, Conn., says:

When the Cambridge track athletes heard that Valkyrie had won yesterday they cut all sorts of capers and behaved generally like Indians at a war dance.

They hugged each other in sheer joy and started everybody in their hotel by their yells and English songs. They sent congratulatory telegrams to their countrymen.

They will go to New York Thursday to witness the next Defender-Valkyrie race.

Southern Army Successful.
Stettin, Sept. 11.—In today's maneuvers the southern army succeeded in dislodging the northern army from its positions at Hohenholz and Pritlow after five hours' fighting. The northern army was driven before the railway upon Smargow.
